TO THE UNFORTUNATE.

NEW REMEDIES! NEW REMEDIES!

DR. GIBBON'S DISPENSARY,

(Established in 1854.)

617 Kearney Street, near Commercial, San Francisco.

EXPOSURE OF QUACKERY.

For the treatment of Sexual and Seminal Diseases, such as gonorrhœa, gleet, stricture, syphilis in all its forms; seminal weakness, impotency, etc. Skin Diseases (of years standing) and Ulcerated legs, successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned to this State, after an absence of one year, during which time he has visited all the principal hospitals of Europe—among them those of Dublin, London and Paris. The following celebrated hospitals of London are among those visited by the Doctor: Guy's, High St. Borough; St. Bartholomew's, Smithfield; St. Luke's, Old street; St. Mary's, Camb Place, Pad.; Lock, Harrow road; University, Gower street; Westminster, Broad Sanctuacy; Charring Cross, Agar street, Strand; London, Whitehapel road; Royal Free, Gray's Inn road; King's College, Portugal street.

DR. GIBBON has visited Drs. Acton of London; Parker of Birmingham, England, and Ricord of Paris, who are considered the best physicians and surgeons in the world, and whose authority is acknowledged to be the highest in the treatment of Sexual Diseases.

DR. GIBBON has obtained from them their new mode of treatment, which cannot be surpassed.

DR. GIBBON has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

SAN FRANCISCO, April 1, 1865.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system. Look at their pallid, amaciated and disfigured faces, and their broken constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians and friends attend to those who are suffering with any of these horrible, life-destroying maladies—see that they are cared for and cured before it be too late. Send them to DR. GIBBON, a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended Doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strick inquiry, or may fall into the hands of those charlatans.

Syphilis is Syphilis the world over; so is small pox, consumption and other diseases, to the contrary of what quacks may say.

Seminal Weakness.

Seminal Weakness, the consequence of self-abuse.—This solitary vice or depraved sexual indulgence is practiced by the youth of both sexes to an almost unlimited extent, producing with unerring certainty the following train of morbid symptoms, unless combatted by scientific medical measures: sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunt intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained should apply immediately either in person or by letter, and have a cure effected by this new and scientific mode of treating this complaint, which never fails of effecting a quick and radical cure. Dr. G. will give $100 to any person who will prove satisfactorily to him that he was cured by either of the San Francisco quacks.

DR. GIBBON is responsible and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr. GIBBON, stating case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for ten dollars, sent in a registered leter, or through Wells, Fargo & Co.

Address DR. J. F. GIBBON, 617 Kearney street, near Commercial, San Francisco, Postoffice Box 252.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who, with bogus sworn to certificates, dupe the unwary. Some of the self-styled doctors whose names are to be found in the daily and weekly papers of San Francisco and other places, are tradesmen, and became too lazy to work at their trade. Some are tinsmiths, shoemakers, newspaper-carriers, intelligence office, keepers, etc.—Look over the San Francisco City Directory and you will find their former occupation in it. Look at the Directory for 1862. The only way to avoid imposition is make inquiry—it will cost you nothing and may save you many regrets, for advertising physicians in eight cases of ten are bogus, there is no safety in trusting till you know what they are. DR. GIBBON does not deceive people by exhibiting bogus titles, certificates, pretended patients' letters, etc. DR. GIBBON will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.

Prevention Better than Cure.

The newly invented Patent French Safe, a sure Prevention against diseases and pregnancy. Sent by mail—Price, $2.

Address DR. J. F. GIBBON, 617 Kearney street, near Commercial, San Francisco Postoffice Box 252.

AUTOBIOGRAPHY OF A CAT.

(A CHRISTMAS STORY FOR LITTLE FOLKS.)

BY J. F. MAGUIRE.

I was sitting on the Doctor's knee one morning, when the following conversation occurred between him and his wife: "My dear," said the lady "put down that odious cat; I want to speak to you." "Well, my dear, speak away, I can hear you without putting down pretty pussy—poor thing. What harm has she done? has she little puss?" The reader may imagine how I rubbed my head against the vest and lady's tablet of my kind friend. "What I have to say is this: I must have more money to pay my week's bills." "More money! By Jove! What do you say to that puss?" This direct appeal to me was highly embarrassing, and did not at all lend to propitiate my mistress. "Oh, bother! Do put down that nasty treacherous brute," said the mistress, unhandsomely. "Shame, little wife, remonstrated the Docter; my pretty little pet (she reminds me of you, so much,) is the gentlest of creatures." "But go on, I am listening." The reader may, perhaps, appreciate the conflict of emotions in my breast; but I cannot venture to describe what I felt. "I tell you, Henry, I must have more money. Nelly, to whom I have spoken about the enormous bills, can give no satisfactory explanation of them. She says she wastes nothing, but only for the cats the meat would last much longer." "The cats, my dear, nonsense!" replied the Doctor. "Its not nonsense, sir; Nelly is an honest girl, and does not tell lies." "No doubt she is honest. We are all honest till we're found out. Eh, puss?" "She says she can't keep a bit of cold meat with the cats—that they are all the greatest thieves in the world, and that your beautiful pet there is the most of the three." A feather would have knocked me off the Doctor's knee, so stunned was I, by this shameful accusation. "My dear," said the Doctor, "I don't believe this cat is a thief, nor if they were the greatest thieves in the world, could that account for the waste in this house." "Oh, of course, sir, you will believe nothing against your darlings; I declare I'm astonished to see a married man, the father of a large family, nursing and spoiling nasty, dirty cats—dirty gluttons!" said my mistress, losing all control over her temper, and seriously compromising the dignity of her "sex." "My dear, my dear, don't excite yourself. There, let them be all you say. But are you *sure* Nelly has no followers—no "cats" of a different kind—cats that have got no tails, but capital teeth?" "Nelly, Doctor, has no followers; her people live a hundred miles away." "No lover or anything of that kind?" "No, sir, Nelly is no giddy-chit." "Well, I am glad to hear it; but I thought I saw a hulking fellow about the place, and that *he* might be the cat." "Poor fellow, that was a man, whom Nelly tells me wanted to see you for a complaint of the lungs." "Hum! It may be so," said the Doctor. "But don't believe all you hear against the cats, my love. It sometimes happens they come in for more than they honestly deserve." I could have adored my master, meerschaum, smoke, mustaches and all for his noble words. I wished mamma and Uncle Rothschild had been there and heard them. They would have removed much natural prejudice from their minds. The bills went on increasing, not alone for meat, but for bread and butter and milk; and what was more remarkable—jams and pickles—made him by one of his lady friends; began to disappear with astonishing rapidity. Pies and pastries followed likewise, and there were few articles, either eatable or drinkable, that did not take wings to themselves and fly. The ale now lasted only quarter its time, and spirits or wine could not be left out with safety. Of course, *it was the cats!* The reader must see that I intend this in irony. What a time we had of it. Did we show our noses in the kitchen, Nelly would raise a shout loud enough to waken the dead, calling us "nasty devouring bastes." If a strange noise were heard in the kitchen, the explanation, "*sure* its the nasty cats," was sufficient. We suffered in sorrowful silence. Uncle Rothschild was disgusted with life, and sought consolation on the shingles. Mamma was of a hopeful nature, and had greater experience of the world; and, indeed, but for the strength she imparted to dear uncle, my impression is, he would have challenged a large foxy Tom of the neighboring house to moral combat, and deliberately fought into the street. Happily, mamma's counsel prevailed, and were saved from so dreadful a catastrophe. Things had now gone to an intolerable pass. No sweep or Christy minstrel was blacker than we were made by Madam Nelly, the cook. Even our master had hardly the moral courage to say a word in our favor, and I dared not attempt the least familiarity with him in the presence of his watchful wife; (did he not wish to be a jolly bachelor again) but fortunately the end was at hand, for another month would have crushed my youthful spirit and driven Uncle Rothschild to an untimely grave. Here was how it happened: master and mistress had dined on a splendid roast leg of mutton, fully fourteen pounds weight, sent him by Grohs, and as it was being removed, the Doctor said it would eat very well cold, and that he should like a little of it for his breakfast next morning.

During the evening, mamma, who was with me under the kitchen table quite in shadow, observed that the "big cat" as she called the Highlander, was expected, and she called my attention the ribbons in Nelly's cap and the care she took in tidying the place. And surely, he did come, looking, if anything, bigger and uglier than ever. After an embrace, which mamma did not like me to see, the Highlander sat down to his supper, consisting of the very leg of mutton that was to be kept for master. How the gallant fellow did plough into it, and slash at it, and make it disappear. If he only treated the enemies of his adopted country as he did that leg of mutton his name would be the "Fourth Great Man" in America. Mamma winked at me, as much as to say "this is *our* work, it is we who are eating the mutton," of course this was also ironical. With the thoughtlessness of youth, I approached the Highlander and commenced to play with the tassels of his philadee, that hangs in front of his kilt, and was amusing myself innocently enough, when mamma approached me, and gave me a sharp box on the ear. "Ha, old girl," said the Highlander, "what are you at? at the same time clutching mamma by the tail. Imagine mamma's indignation, if you can. Outraged, calumniated, slandered, and such a liberty, from such a quarter. Stung to madness, mamma made a mild dash at the Highlander's bare legs and with tooth and nail fully expressed the stormy emotion of her soul. The Highlander raised a fearful yell, that, if heard in the Senate Chamber or the field of battle, might have convinced or scattered the enemy in dismay, and struck frantically at dear mamma whom he called a very bad name, which I blush to remember. But mamma fought like a heroine—Joan of Arc, or the Maid of Saragossa—and the more the Highlander kicked and danced, the firmer did she drive her fine claws into his naked legs. He roared, stamped and yelled. Down went the table, smash went the crockery, flying went Seffen's last present of tongue, away went Nelly in high hysterics, prostrate were Mrs. E.'s smoked herrings, pop went Buckhalter's bottles of champagne, like showers of hail fell Boke's candy, while his prime havanas became fixtures in the capa sauce, and in the midst of this stupendous clatter, the Doctor appeared at the door, the mistress behind him. "Well, my love, sure enough it was the cat did it all, and 'pon my life, a very fine Tom he is." That was all the Doctor said. But it was enough. Mamma's feelings were appeased Uncle Rothschild's honour was redeemed. Next day Nelly left without daring to demand her paper.

Thenceforward there was peace and happiness in the house. I am again a mother, a happy mother, and while I collect these recollections, which I do with a double object—for the instruction of the human family, especially those who are mistresses of houses, and for the vindication of a calumniated race. Uncle Rothschild and dear mamma are watching over the safety of my precious ones, in whose welfare, I may add, the Doctor evinces the deepest interest, and now without exciting the jealonsy of his wife.

(Concluded.)

THE OLD WOMAN AND THE CROW.

The following story sounds considerably like "Poe's Raven,"—perhaps Poe's song is taken from it. For "light reading," this is hard to beat, and not a bad joke on the Methodist persuasion:

At a certain cross roads in the State of Alabama, stood a small grocery, or "whisky-shop," previous to the rebellion, where "bust head," and "chain lightning" were dealt out to the unwashed, at the small sum of ten cents a nip, or twenty cents a quart. The presiding genius of this delectable institution was one Bill Sikes, who among other pets, had a domestic crow, black as the ace of spades. This crow had learned among other things, to repeat quite distinctly, the words "damn you," which he, of course, heard frequently used in the grocery. During the prevalence of a knock down and drag out fight one day, however, the crow was frightened away and flew off into the woods, never to return.

About three miles from the grocery was a settlement meeting-house—an old tumbled down affair, only used on certain occasions, when a "circuit rider" happened to pass that way. Into this building went the crow, taking peaceable possession; and two days after the church was thrown open for preaching, and the crowd assembled, among whom was an old lady, who was compelled to use crutches in walking, and was soon deeply absorbed in the eloquence of the preacher. The reverend gentleman had scarcely got under headway and commenced thundering his anathemas at all grades of sinners, when a hoarse croaking voice from above uttered the ominous words:

"*Damn you.*"

The preacher and congregation looked aghast at such profanity, and each peered into his neighbor's face in vain to detect some sign of guilt. Quiet was at length restored, however, and the sermon proceeded, but ere ten minutes had elapsed, the ominous "damn you" again electrified and startled the audience, and just as the preacher cast his eye upward to search for the delinquent, the crow flew down from his perch, and 'lighting on the Bible, calmly surveyed the terrified crowd, as he gave another doleful croak:

"DAMN YOU!"

The effect was electrical. Giving one startled and terrified glance at the intruder, the preacher sprang through the window, carrying sash, glass and all with him, slitting his coat tail into kite tails and thus rendering it useless as a checker-board, and set off at a break-neck pace through the woods, closely followed by the horror stricken congregation, who had piled out of the building, pell-mell, after him. In the general scramble the old lady with crutches had been knocked down in the church, where she lay unable to rise, and on observing her, the crow flew down beside her, and cocking up his eye at her very knowingly, again croaked:

"DAMN YOU!"

The old lady eyed him savagely for a few moments, and then burst forth in reckless defiance:

"Yes—and *damn you*, too! I had nothing to do with getting up this Methodist meeting, and you know it, too!"

The poor old soul had mistaken the crow for the devil, and concluded to propitiate, if possible, the wrath of his satanic majesty, by denying all complicity in the affair. The world is full of just such people.

MASONS VS. ANTI-MASONS.—A few days ago, two bricklayers, refreshing their "inner man" at noon, at the place where they were at work, got into a discussion upon the merits of Freemasonry. Neither of them were members of the Ancient Fraternity, but both thought they knew considerable about it. While they were warmly expressing their opinions, one of them noticed their hod carrier, a genuine specimen of Ethiopia's race, who was sitting near them, appeared very much interested in the discussion, so much so, indeed, that his corn bread and pickled pork lay upon the scaffolding untouched.

"Well," said one of his brother laborers, "it is foolish in us to be discussing so warmly something we know so little about. If either were a Mason there would be some sense in it."

"I know more about the Masons than you think I do," said the other.

"Pshaw that's nonsense. There's Jack, the hod carrier, listening very attentively, and I should not be a bit surprised if he knows more about them than both of us!" "Jack," he cried to the colored individual.

"Sar?" replied Jack.

"Do you know the difference between a Mason and an Anti-Mason?"

"Yes, sar, I belieb I does."

"Well, what is it?"

"If my brain tell de truf, an it neber fails, Mason is de man what *laps de mortar*, an de Anti-Mason de man what *carries de hod*."

A TRADE A FORTUNE.

If parents would consider the welfare and happiness of their children, they would choose the virtuous mechanic, farmer or honest trader, as companions or helpmates, instead of the rich, who, aside from their income have no means of subsistence. How often does this question arise, and from parents, in choosing companions and suitors for their daughter, "Is he rich?" If the daughter answers "yes, he is rich, he is a gentlemen, neat in his dress, and can live without work," the parents are pleased. Not many years ago a Polish lady, of plebeian birth, of both exceeding beauty and accomplishments, won the affections of a young nobleman, who having her consent, solicited her from her father in marriage, and was refused. We may easily imagine the astonishment of the nobleman.

"Am I not," said he, "of sufficient rank to aspire to the hand of your daughter."

"You are undoubtedly the best blood of Poland, replied the father.

"And my fortune and reputation," continued the young nobleman, "are they not—"

"Your estate is magnificent, replied the father, and your conduct irreproachable."

"Then having your daughter's consent, should I expect a refusal?" said the nobleman.

"This, sir," replied the father, "is my only child, and her happiness the chief concern of my life. All the possessions of fortune are precarious; what fortune gives, at her caprice she takes away. I see no security of independence and comfortable living but one; in a word, I am resolved that no one shall be the husband of my daughter who is not at the same time master of a trade."

The nobleman bowed and retired silently. A year or two afterwards the father was sitting in the door, and saw approaching the house, wagons laden with baskets, and at the head of the cavalcade a person in the dress of a basket maker. And who do you suppose it was? The former suiter of his daughter; the nobleman had turned basket maker. He was now master of a trade, and brought the wares made by his own hands for inspection, and a certificate from his employer, in testimony of his skill. The condition being fulfilled, no further obstacle was opposed to the marriage.

But the story is not yet done. The revolution came—fortunes were plundered, and lords were scattered as chaff before the four winds of heaven. Kings became beggars—some of them teachers; but the noble Pole supported his wife and her father in the infirmities of age by his basket making industry.

MASONIC CHARITY.—Night kissed the young rose, and it bent softly to sleep. Stars shone and pure dew-drops hung upon its bosom and watched its sweet slumbers. Morning came with its dancing breezes, and they whispered to the young rose, and it awoke joyous and smiling. Lightly it swung to and fro in all the loveliness of health and youthful innocence. Then came the ardent sun god, sweeping from the east, and smote the young rose with its scorching rays, and it fainted. Deserted and almost heart-broken, it dropped to dust in its loveliness and despair. Now the gentle breeze, which had been gambolling over the sea, pushing on the homebound bark, sweeping over hill and dale, by the neat cottage and still brook—turning the old mill, fanning the brow of disease, and frisking with the curls of innocent childhood—came tripping along on her errand of mercy and love; and when she fondly bathed its head in cool, refreshing showers, the young rose revived, and looked and smiled in gratitude to the kind breeze; but she hurried quickly away, singing through the trees. Thus, charity, like the breeze gathers fragrance from the drooping flowers it refreshes, and unconsciously reaps a reward in the performance of its kindness, which steals on the heart like rich perfumes, to bless and to cheer.

AN ESCAPED HUSBAND.—My wife has gone to visit her mother, I am happy to be able to state the children accompanied her. Peace, quiet and felicity reign in my dwelling. I come and go unquestioned. I stay out at night without fear of rebuke! I lie abed of mornings and no one insists on my getting up. My friends pass the evening with me, and there be none who tell me next day that the window curtains are filled with tobacco smoke; and that the parlor has the fragrance of a bar-room. If two or three friends come to dine with me, the cook never asks me why I brought them, nor complains of a headache. What is more, she does not insist upon having a new silk dress every week, nor burst into tears if I utter rude or naughty words. The fact is if there be one thing I like more than another, it is to have my wife visit her mother.

FOOD FOR A DAY.—Imagine Madame Elephant coming to spend the day in a friendly kind of way. A dish of hay would be needed weighing eighty pounds, with the addition of twenty pounds of bread. This, washed down with gallons of water, would barely supply her. She bolts a quartern loaf with as much ease as a hungry navvy would a slice of delicately thin bread-and-butter; whilst biscuits roll down her capacious gullet like pills. She sleeps on straw, insuring a new bed every night by devouring every morsel of the old one. Thus her daily ration is one hundred pounds of hay, bread, and biscuits, a truss of straw consumed during the night, besides sundry large turnips, mangel-wurzel, eight or ten cabbages, and what is given by the visitors, which is not reckoned. The rhinoceros demolishes about the same weight in the aggregate, but more hay and less farinaceous provender. The hippopotamus disdains manufactured trifles, and has no interest in the cheap loaf for his dinner. He prefers green vegetables. Grass, clover, and vetches disappear with astounding rapidity. Over one hundred weight of grass, besides vetches and hay, with a few mangles added, are barely sufficient to support its ponderous carcass for a single day.

STRANGE BRIDAL STORY.—A strange story is told of two sisters at Berlin. About three years ago one of the young ladies was engaged to be married, but on the bridal morning became so ill that she could not possibly go to church. The bridegroom was a desirable one, and he was a fish who, it seems, had not been easily hooked. There was, therefore, great danger in delay, so instead of postponing the marriage the second sister, covering herself in a long veil, personated the first, and duly went through the ceremony. The moment it was over she transferred the bridal dress and ornaments to her sister, who, in her innocence, was thus considered to have all proper claim to this husband she had married by proxy. It is only recently that a discovery has been made of the real facts, and proceedings are to be taken not only in the civil, but also in the criminal courts of Berlin.

INTERESTED.—A newspaper editor says he felt called upon to publish a sermon on the "Locality of Hell," as it was a question in which nearly all of his readers were deeply interested.

VERY LIKE A DREAM.—In 1847 a young physician, who had just graduated at the Missouri State University, and returned to his home in Illinois to practice his profession, led to the altar a lady who had won his love. The young physician with that professional ardor which burns so brightly in the hearts of all students, had on his return home procured a "subject," or cadaver, for dissection, by desecrating the village graveyard. By some means this fact became known, and a warrant was issued for his arrest, and placed in the hands of an officer to serve, which he did a few moments after the marriage ceremony had been performed. The crime being a felony, the bridegroom's position may readily be imagined to have been extremely unenviable, and the prospects of a prison cell being anything but agreeable, he determined to make his escape. The officer having granted him the privilege of saying a few words in private to his wife, he retired with her to a room, bade her farewell, jumped from the window and escaped. He was pursued for many days, and settled in Missouri. A year later he wandered into New Mexico, and from thence, in the course of a few years later, found his way into California. During his wanderings he had failed to correspond with his wife, and she, believing him dead, married again. After a time he learned this fact, but determind to remain dead to her, and it was not until a few months ago that he altered his determination. Happening to pick up a paper published in one of the Western cities, he read an account of the death of the husband of his wife, and knowing her to be free, he wrote to her, telling her that he "still lived," and cherished her memory as green as when he kissed her lips in parting nineteen years ago. He told her that he was still free, and asked her to come and enjoy with him the fortune he had accumulated. The wife widow received the letter, and while she read the early love returned, and she determind to join him. Disposing of her property, she, with a daughter twelve years of age, took passage for California, where they arrived on Thursday last, and where they were met on the wharf by the old husband, who conducted them to the Cosmopolitan hotel, where they remained till a license was procured, and a minister married the parties, after which they proceeded to the house that had been prepared for them, and where they, on Thursday evening, entertained quite a number of friends. Truly, the incidents of real life are more startling and romantic than the wildest fancies of the romancer.—*San Francisco Call.*

THE SENSATION ROMANTIC.—'Twas at the close of a glorious Summer day—the sun was sinking behind the distant hog-pen—the chickens were going to roost—the bull-frogs were commencing their evening songs—the pollywogs in their native mud-puddles were preparing themselves for the shades of night—and Sal and myself sat upon an old, amputated log, listening to the music of nature, such as the tree toads, and now and then the mellow music of a distant jackass, which was wafted to our ears by gentle zephyrs that sighed among the mullen stalks and came heavily laden with the delicious odor of pen-roosts and pig-styes. The last rays of the setting sun, glancing from the buttons of a soldiery horseman, shone through a knot-hole in the pig-pen full in Sal's face, dyeing her hair with an orange-peel hue, and showing off my threadbare coat to advantage. One of my arms was round Sal's waist, my hand resting on the small of her back—she was toying with my locks of jet black hue—she was almost gone, and I was ditto. She looked like a grasshopper dying with the hiccups, and I felt like a mud-turtle choked with a codfish ball.

"Sal," says I, in a voice musical as the notes of a dying swan "will you have me?" She turned her eyes heavenward, and with a sigh that blew her shoestrings to her palate, said, "Yes." She gave clean out then, and squatted in my lap—I hugged her until I broke my suspender.

DEPTHS OF THE SEA.—A French journal says the soundings effected with reference to the new trans-atlantic cable have enabled comparisons to be made of the different depths of the sea. Generally speaking, they are not of any great depth in the neighborhood of continents; thus the Baltic, between Germany and Sweden, is only 120 feet deep; and the Adriatic, between Venice and Trieste, 130 feet. The greatest depth of the channel between France and England does not exceed 300 feet, whilst to the south-west of Ireland, where the sea is open, the depth is more than 2,000 feet. The seas to the south of Europe are much deeper than those in the interior. In the narrowest part of the Straits of Gibraltar the depth is only 1,000 feet, while a little more to the east, it is 3,000 feet. On the coast of Spain the depth is nearly 6,000 feet. At 28 miles south of Nantucket (south of Cape Cod) no bottom was found at 7,000 feet. The greatest depths are all to be met with in the Southern ocean. To the west of the Cape of Good Hope 16,000 feet has been measured, and to the west of St. Helena 27,000. Dr. Young estimates the average depth of the Atlantic at 25,000 feet, and of the Pacific 20,000 feet.

A SOPHIST, wishing to puzzle a Thales, Milesian, one of the wisest men of Greece, proposed to him in rapid succession, these difficult questions:

What is the oldest of all things?
God, because he always existed.
What is the most beautiful?
The world, because it is the work of God.
What is the greatest of all things?
Space, because it contains all that is created.
What is the quickest of all things?
Thought, because in a moment it can fly to the end of the universe.
What is the strongest?
Necessity, because it makes men face all the dangers of life.
What is the most difficult?
To know yourself!
What is the most constant of all things?
Hope, because it still remains with man after he has lost everything else.

The philosopher replied to them all without the least hesitation, and with how much propriety the reader can judge.

THE superintendent of a Sunday school was questioning his pupils concerning the addresses made to them during the previous session.

"Children, what did Mr. Phonny tell you this morning?"

No answer was made.

"Can't any one tell me what he said? Susie, don't you remember?"

Susie, a bright little girl of seven years, arose, and, with one finger in her mouth, bashfully lisped out:

"Pleathe, thir, he talked and he talked, and he thed ath how he loved uth, and he talked—and—we all thought he wath a-goin' to thay something, but he didn't thay nothing."

Those who undertake to address Sabbath school children without having anything to say, may learn something from Susie.

LOVE the work you are doing and must do; but when it is done, train the rose-vines over your door.

DUTCH FLAT ENQUIRER.

SATURDAY MORNING, MARCH 24, 1866

Now, by St. Paul, the work goes bravely on,
The Stars and Stripes are up for Liberty,
Flag of the Nation--Talisman of the Free,
Curs'd be the hand that dares to pull thee down.

YE MITES.—The last meeting of this society, from what we saw of it, stood very much in need of reconstruction. But two ladies honored the meeting with their presence, and the assemblage immediately dispersed. It was all owing, however, to the inclemency of the weather, and next Tuesday evening the society will meet again at the same place. A grand rally may be expected.

POSTPONED.—The Vocal and Instrumental Concert that was announced to have come off at the Union Church last night, in consequence of the illness of some of the principal actors and the stormy nature of the weather, has been postponed until next Thursday evening, the 29th inst., at which time, the weather being favorable, we predict a crowded house.

LECTURE.—The Rev. N. R. Peck will preach a sermon on Education, in the M. E. Church, to-morrow morning. In the evening he will lecture on the Past, Present and Future of the Christian Church.

QUARTZ NEAR COLFAX.—From a friend residing at Colfax, and who knows whereof he speaks, we learn that the quartz excitement in that vicinity continues unabated. The ledges are situated near Bear river and almost immediately on the Grass Valley road. Our informant appears confident that these ledges are a continuation of the Grass Valley series. Inasmuch as the rock bears a striking resemblance, and added to the fact, almost universally conceded, that the Grass Valley leads cross somewhere in that vicinity, it does not seem at all improbable that such is the case. Nothing, however, is definitely known as yet, save that the rock assays well, besides showing much free gold. Wondrous changes may be effected in a very short time. Who knows but what the Colfax quartz mines may yet eclipse the famous Comstock lead, and that the mud in the streets of that town will completely dry up? So mote it be.

THE QUESTION SETTLED.—At a meeting of the Trustees of the Union Church of this place, held on the 13th inst., the following resolution was unanimously passed and ordered printed in the ENQUIRER:

Resolved, That the Union Church of Dutch Flat, shall at no time be occupied—*save for usual religious services*—except by the consent of a majority of the committee appointed to rent or let the same; and in case of the non-agreement of said committee, or a portion of the same who may be present, as to the occupation of the Church, the whole matter shall be submitted for consideration and final action to the Board of Trustees, a meeting of which shall be called for that purpose.

The above resolution was published last week, but as the portion placed in *italics* was omitted, we re-publish it as corrected.

GOOD YIELD.—We learn that the Badger Hydraulic claim cleaned up, one day last week, $3,000, the result of fifteen days washing—four men engaged. The Company is divided into thirteen shares, and the figures given above, as we are informed, will yield a dividend of about $150 per share. The Badger has given a good account of itself up to this time, and we doubt not, will continue to do so in the future.

STILL ANOTHER.—The Rough and Ready, as the result of fifreen days washing, cleaned up $2,500.

A NEW COUNTY.—Some time ago a bill was introduced into the Legislature proposing to form a new county to be called Granite, out of portions of the territory belonging to Placer, El Dorado, Sacramento and Amador counties. The bill was referred to the Committee on County Boundaries, in whose hands it slept until a few days since, when a substitute was offered changing the boundaries, and otherwise differing very materially in many important features from the original measure. Among other things, the substitute proposes to dispense with the name of Granite, by christening the new-born babe Natoma. Some importance is attached, to this measure inasmuch, as it is understood that the committee to whom the matter was referred; the Chairman of which is P. J. Hopper, of the Sacramento delegation, and who resides within the limits of the proposed new county, have agreed to submit a report favoring its passage. We have not seen a copy of the bill, and therefore are not advised as to how much of Placer county it is proposed to lop-off, but we do know, that no considerable number of her citizens are impressed with the great importance of a change that must necessarily increase the burden of taxation in both the old and new county. We view the matter as an office-hunting scheme, contrary to the expressed will and interest of the people to be effected, and in their name we enter a solemn protest against its passage.

THE REGISTRY LAW.—The Registry Law was signed by the Governor on Monday last, and is now the law of the land. It provides that the names of all citizens, both native and foreign born, shall be registered by July, 1867. The County Assessors of the several counties to commence at once to record names, for which no charge is allowed. Each citizen must make affidavit as to his citizenship; the native-born American stating when and where he was born, and foreigners to make oath as to when, where and in what court they were naturalized. From the data thus obtained by Assessors and County Clerks, the official list, will be made out and none whose names does not appear will be entitled to vote at any election. By reference to the ENQUIRER, of the 10th of February, the law in full will be found.

THE Governor has approved an act of the Legislature entitled "an Act for the protection of sleep." The provisions of the bill impose a tax of one dollar per annum on each dog, allowed to prowl around "seeking whom he might devour" somebody's sleep, and for each additional "dorg" owned by one and the same individual, two dollars. The *Bee* suggests that the Legislature, before adjourning, establish a "K 9" Reform School, to be located at the county seat of the new county of Natoma.

A WORD FROM THE "SECOND SPEAKER."

MR. EDITOR:—Perhaps your columns have seldom contained an article that occasioned as much surprise among people of intelligence and patriotism as that which appeared in your last issue, under the title of "Ministers and Politicians," and very oddly signed "Bible Reader." After having prepared a reply, in part, to some of the most patent blunders of this writer, it was told me that several others had been so vexed by the bold assumptions and grave charges it sets forth, as to write something in reply to it, and so I will put by what I had to say, although personally and professionally assailed, that others may have room to respond. But it would be hardly fair for me, being the object of this correspondent's attack, to have no opportunity for any kind of rejoinder. But my charges are confined within very modest limits at present, for I only ask the privilege of stating my position– a thing which your correspondent ought to have done—at the meeting named, in regard to Ministers and Politicians.

A school-boy need not be informed, although this writer, who makes such a display of learning, apparently does, that any speaker at any meeting, no matter by whom it may be called or for what purpose, has the privilege in beginning his address, of preparing the way for what he is about to say, by making such remarks as shall prepare his hearers to give him a candid hearing. At that meeting on the state of the country it was well known to the second speaker that quite a large part of the audience felt that the speaker was out of his place on that occasion, because they thought, like many other well meaning people, that ministers are not qualified to discuss the moral bearing of political measures.

In order to remove this unfounded but very common prejudice, the following propositions were submitted to the audience, which your correspondent regards as a comparison that "is on the whole unjust." Your readers will judge for themselves whether politicians, who are not statesmen, received any injustice at my hands. I copy from my notes used at the meeting:

"Perhaps I ought to remark, before entering upon my theme this evening, that it cannot be denied that a good many respectable people think that a minister ought not to discuss political questions, and point out their moral bearings and pernicious tendencies, because he is not qualified to do it, since it is altogether 'out of his line.' Perhaps so. But may not these good people be mistaken, after all? Let us inquire and see. What, then, is it that qualifies a man to discuss political affairs? Is *honesty* necessary? If so, although myself a minister, I will venture to say, that perhaps, ministers are even as honest as politicians. I will leave that to the intelligence of my audience to decide.

Again: "Is love of country necessary? If so, I will risk the consequences of claiming for ministers as high-toned and pure patriotism as that of the men who make politics a trade, and whose devotion to country may be very safely measured by their love of office, place or power! I know it may be regarded as extravagant by some, but still I venture to make it!

"I name next: *freedom from party pledges, cliques or promises*, as an element of qualification which some may regard as quite necessary. If so, what advantage has the politicians? Moreover, ministers, as a class, are not office-seekers. Politicians are—that is their calling, and they are faithful to it! It seems to me that ministers have the advantage here.

"But I proceed further, and claim another special qualification for ministers, which I suppose no politician will also claim. I refer to their study of theology. Are any surprised? If so, what occasions your surprise? What *is* theology? Why, the study of God and His system of moral government, including His holy laws in their manifold applications to the offices of life, and also His dealings with rebels against His just and righteous authority! Now, does the study of God's perfect moral government disqualify a man for discussing the measures of an imperfect earthly government? Who will claim for the politician such a qualification as this?

"My next proposition is, that ministers are bound by every high moral obligation to discuss the moral bearing of all laws, institutions and customs of human society, and to expose every form of sin, the more respectable the sin may be, and the larger the number that practice it, the greater being their obligation to handle it without fear or favor.

"Finally, I add that the Christian religion is to regenerate and save human society, as well as souls. It is to vindicate its divine origin, and, hence its claims upon all men, by what it is capable of doing for our race. Its fruits must establish this high claim. How? By being dumb in the presence of politicians and their tricks, shams and sins! I know that certain infidels and skeptics claim to have found out a new and better way. But wait a little. I would suggest to them not be too noisy. They can afford to be modest awhile yet, for it some how happens that those portions of the race which have made the greatest progress in all that elevates and dignifies our kind are, and have been, confessedly the most under the influence of Christian ministers and institutions. When these boasters of a better way cease their boasting, go quietly at work and prove their superiority by their superior works, then I promise you that we shall all hold ourselves ready to applaud.

"If now I have established my claim to be heard by you on the great questions that are rightly engrossing the public mind to so large an extent, I proceed to remark," etc.

Such, Mr. Editor, as you will remember, are the remarks which seem to have touched the sensibilities of somebody and led him to rush into print with one of the most remarkable productions I ever read. The conviction forces itself on my mind that it does not require a very practised eye to discern under the thin disguise of "Bible Reader," a *wounded politician*. I may have occasion to pay my respects to other portions of his unique essay. In closing I would politely suggest that if he has further occasion for criticizing my views, that he, for once, follow my example and give the public his name. In great haste, &c.,

J. A. JOHNSON.

March 23, 1863.

A RECENT decision of the Supreme Court of Nevada makes greenbacks a legal tender in payment of all taxes, which, coupled with former decisions of the same tribunal, virtually renders the provisions of the Specific Contract Act of that State nugatory. An advance in leading stocks, as shown by the reports, and a general revival in all branches of business in our sister State since these decisions were rendered, is not without significance.

UPSET.—On Monday last one of the Pioneer Company's stages, filled with Johns from Colfax upset in the streets of Gold Run. Nobody hurt.

PLACER COUNTY, March 21, 1866.

FRIEND BOUST:—Some time since I noticed a complaint in your paper of the disappearance or loss of a *meerschaum pipe*, the property of the *Editor*. Chancing a few days since to find the enclosed, and thinking it must surely be a *mere sham*, and probably your's, I enclose it to you. Please acknowledge the receipt of the same in the ENQUIRER, and oblige your's,

A SUBSCRIBER.

The above we received with a "mere sham" pipe from some in-considerate cuss supposed to have a local habitation at or near Iowa Hill, the vicinity of practical jokes. We acknowledge the receipt of your present, Mister, and in return say, that if your motive was to induce us to fill that pipe with fine Turkish tobacco more than once in three months, you have signally failed, thereby proving yonr effort to benefit venders of the article in this place at our expense unsuccessful. You are now loaded with heavy responsibilities: the English language is too poor tor us to express the disappointment occasioned by the sad reality of your solicitude. You cannot conceive the sorrow, chagrin, and utter "gone-in-itiveness" which permeated our entire system when the utter worthlessness of your practical joke dawned upon our expectant vision. May you—but its no use; we can't do it justice and we'll invoke the choicest blessings of the recipient of a pipe holding a bale of tobacco at a smoking; said pipe being manufactured by a botch out of metal latterly found in Cornwall, England, though small quantities are known to exist in the mountains between Gallicia and Portugal. This metal was in use in time of Moses, vide. Numbers xxxvi. 22, but we fear we are throwing pearl before swine, and the next time you desire to give us a pipe don't go to the trouble of making a tin one, but send us a good, old-fashioned corn-cob. Yours, truly.

"STRUCK ILE."—On last "St. Finigan's day," or more properly perhaps, the "Seventeenth of Ireland" just past, a number of the "Celestial Herders" in the employ of the C. P. Railroad Company above this place, who held in high esteem the natal day of the saint that banished from the green shores of the "Old Dart," all the "snaix," and toads that had a "local habitation" there, got on a little "time" in the following manner, which resulted rather disastrously to all concerned: It seems that one of the most enthusiastic of the number had procured a ten gallon keg of the "intoxicating beverage" and secreted near the scene of their labors. Accordingly, on the day in question this individual reported that he had struck an "ile well" and extended a general invitation to the "bosses" to go with him and "prospect," it, which of course they did, as the sequel will show. Frequent trips were made to the "well" during the day by all hands, until at last when all were more or less "enthused," the Superintendent ("Strowbridge") happened along, and seeing that there was a "screw loose somewhere," summarily dismissed seven of them.

There is a moral in the above, that the unfortunate "seven" will appreciate if none others.

ST. PATRICK'S DAY.—The anniversary of the patron saint of the natives of the Green Isle was celebrated with considerable eclat at a majority of places in this State. In San Francisco the display was especially large and imposing and doubtless fully met the expectations and wishes of the many who are anxiously waiting the orders "Forward, to Canada!" Whether our Irish fellow-citizens knowingly connive at the chicanery said to be practised by President O'Mahony, we of course cannot say, but one thing we believe, that should the Society of Fenians interfere with her Brittannic Majesty's arrangements either in Europe or America they will get soundly thrashed for their impudence. We do not say this particularly because we oppose the Fenian movement, but of the fact that those who are enlisted in the enterprise number so few in comparison with the undertaking that a demonstration against such a power as Great Britain would be simply ridiculous.

☞ THE numerous pack trains arriving daily in our town, forcibly reminds us of the modes of transportation in '49 and 50; and at no time since that alluded to has there been a similar number of pack animals employed in this neighborhood. Well, we suppose all this will be soon done away with as the railroad is rapidly nearing us; in three months we will be able to breakfast here, go to Sacramento and return home to dinner. Hurrah, for the railroad.

THE WEATHER.—We have been favored with a good supply of this commodity the past week, and, that too, of the roughest description. Snow and rain alternately up to yesterday, when a steady shower set in, which continues without the slighest prospect of an immediate abatement, at present writing. This freak of the clerk of the weather completely "knocks the socks" off the "oldest inhabitant," who asserts that the like was never seen before.

ALMOST A FIRE.—Halsey's blacksmith shop had a narrow escape from destruction by fire on Sunday morning last. It appears that the fire originated from the coals left in the furnace the night previous; and but for the fortunate discovery of the flames before they had attained headway, a conflagration would have been the result.

RELEASED.—On Monday last a resolution was introduced in the Senate by Judge Belden, of Nevada, and adopted, directing that D. O. McCarthy, of the *Flag* be released, and that the committee proceed to investigate the charges preferred by him according to their own discretion.

"FAILED TO CONNECT."—On Thursday last, owing to the recent storms rendering the roads almost impassible, the down stages failed to connect with the cars at Colfax. The roads are reported as extremely bad along the entire route between that place and the snow-belt.

WE learned yesterday that snow was nine feet at Summit City. If the weather continues as unfavorable for traveling the next as during the past week it will be impossible to get to that El Dorado at all.

"MONROE'S" communication this week was printed on the outside of the chase which accounts for the many witty things contained therein.

SUMMIT CITY.—The Downieville *Messenger* learns from a gentleman just from Summit City the Winton Mill lately obtained from a crushing of Pacific rock, $65 to the ton. The previous clean up yielded only $56 per ton. The California Mill is expected to start in a couple of weeks. Smith and Perkins, (formerly of Morristown) and Kellogg and Cutter, (formerly of Alleghany) and some of the other grocery and general merchandise dealers, are said to have done well during the Winter. But few people were coming in. Snow from six to seven feet deep. Roads for hauling timber and lumber were being opened. If the weather holds moderate without snow, it is thought the main roads will be open about the first of next month. Building lots are held about the same as last Fall. We have no doubt that times will be lively in the Spring.

The editorials are of the ablest character, the news department is presided over by the best talent of the country, and the miscellaneous matter is evidently selected by editors who are adepts in the business. In short, it is a tremendous newspaper, and what we admire quite as much, a very handsome one.—TRINITY JOURNAL.

Many of the leading articles in the AMERICAN FLAG when carefully perused, cannot fail to make the lover of his country tremble. They are unmistakably a plain chess-board of the future, and will serve as a beacon light on the political paths of the nation. A large number of these articles are worthy of republication in book form.—LOS ANGELES NEWS.

THE FLAG is to be trusted as a true Union paper without deceit, which no motive of interest can turn from its course; and which cannot be swayed by favor or intimidated by threat. It is a first-class journal and ought to receive the hearty support of the true Union men of San Francisco and the interior.—STOCKTON INDEPENDENT.

We have received the AMERICAN FLAG, published at San Francisco, California. It is printed on a double sheet larger than the New York Tribune, and is by far the ablest and best newspaper in the Golden State.—LITCHFIELD (CT.) ENQUIRER.

THE AMERICAN FLAG is the truest, ablest, and most fearless defender of the Union cause in this State. There is no other paper that can be compared with it in any respect. It is independent of cliques, cabals and factions.—NEVADA GAZETTE.

THE AMERICAN FLAG exceeds in variety and interest of its contents any paper west of the Rocky Mountains. It is justly entitled to the hearty friendship of all Union men. The Press generally have accorded it the honor due to their giant cotemporary.—ESMERELDA UNION.

PREDICTIONS CONFUTED—THE LEGISLATURE VINDICATES ITSELF.

Among a large body of our fellow-citizens an idea prevailed for some time after the election of the Legislature, that this must prove, unavoidably, one of the most exciting sessions hitherto chronicled. Several years since, an allusion to one or two of the all pervading topics which then took precedence even of business and church affairs, would have brought half of either branch of the representation to its feet in a paroxysm of agitation, and hardly less pronounced a character was anticipated in men who should occupy the benches of the Capitol for the several months succeeding the declaration of peace. It was supposed that if the broaching of any subject could promote an endless series of bickerings or prolong the daily sessions, it would be the least allusion to the subject of African emancipation, yet the season has nearly gone by, and the prophecied prolonged sittings, extending far into the midnight and ending in duels and personal collisions, which were to follow all agitating discussions have been entirely wanting. The inference is that the spirit of dissension is virtually crushed, and that the advocates of violent alternatives have become so far satisfied of the impracticability of their new system as to have abandoned it entirely for the old one. Accordingly, they are busily manipulating those old rusty wires which have done such excellent service heretofore, with a view to raising themselves once more to the rank and dignity of a "party," while sound Union men of all complexions of political faith are coalescing with a determination to rebuild the fabric of our liberties on a foundation calculated to insure its durability and the esteem of all mankind.

An excellent feature, which has given a tone to the transactions of the Legislature now passing away, is the evident determination to avoid all irritating topics not immediately connected with public affairs, and especially to concentrate attention upon the subjects nearest the hearts of our agriculturists and miners, whose welfare is now suffering under the deadly blight which has so long been the curse of this coast and people, the curse of land monopoly sustained through the instrumentality of defective titles. It is fast becoming the universal opinion that some prompt, energetic measure should be adopted by the general government to give a settler a permanent legal right to the ground he may desire to improve, and our Legislators are sensible that, in accordance with the popular clamor, they have devoted themselves so earnestly to the consideration of these matters. It is much better than so much time wasted in the interchange of epithets, and the new precedent has exercised a marked effect upon the deliberations of Congress with regard to the affairs of the Pacific Department.—*Sac. Bee.*

GET THE BEST.—In these days of practical ideas, nobody will deny that a sewing machine is an indispensable institution in every well-regulated family; that the work made upon a good machine is quite as durable and more beautiful than the best hand-sewing, nobody will doubt; and that it will go through as much work in a day as could be performed in a week by hand, ten thousand workshops, and ten times ten thousand firesides will testify. But amid the variety of machines which are offered to the public, it is sometimes difficult for the purchaser to decide which is the best. A trial of over two years enables us to say with the greatest confidence that there is no better machine for general family use than that manufactured by the Grover & Baker Sewing Machine Company. It makes a beautiful elastic seam that does not rip or wear with washing; runs almost noiselessly; is plain, simple, easy to work, and not liable to get out of repair; fastens the ends of its own thread, and uses threads and silks directly from the spools on which they are bought. In this opinion we are sustained by all the judges in all parts of the country, who have awarded the Grover & Baker Machines the first premiums at all the State Fairs in 1862.—*Frank Leslie's Illustrated Newspaper.*

FLORENCE SEWING MACHINE.

Copy of the report of the Committee of Awards at the Fair of the

AMERICAN INSTITUTE
NEW YORK, 1865.

To the FLORENCE SEWING MACHINE CO. for the Best Family Sewing Machine,

HIGHEST PREMIUM! GOLD MEDAL!

REASONS:

1st.—Its simplicity and great range of work.
2d.—The Reversible Feed Motion.
3d.—The perfect finish and substantial manner in which the Machine is made
4th.—The rapidity of its working and the quality of the work done.
5th.—The self-adjusting Tension.

The Florence was awarded the first and highest premium at the State Fair of California, the only Fair on the Pacific coast at which any two doubld thread Sewing Machines were exhibited in competition in 1865.

The Florence received the only premium awarded, by the Mechanic's Institute of San Francisco, in 1864 and 1865, to any Sewing Machine, Sewing Machine Co., or Agent. The claim of a competitor to a medal is without any foundation whatever.

Wherever the Florence has been brought in competition with other Sewing Machines, it has always been declared the best. It is the most simple, the most substantial, the most efficent, and its use is easily learned Every Machine sold is guaranteed in the full sense of the word.

IF YOU blood is corruption, disordered or vitiated, you are liable to be seized at any moment with a fit of sickness. It may appear in the form of pimples, blotches or sores, or it may suddenly prostrate you. One thing is certain: You cannot have health unless your blood is pure. To remove all impure matters from the blood, Adams' Blood Purifier is admitted to be the best preparation yet introduced to the public. It is a purely vegetable preparation, and will harm no one. Its effects are immediate and lasting. It purifies the blood, strengthens the nerves, produces a healthy action of the liver and kidneys, and restores the patient to perfect health and strength. ja3m

DR. J. F. GIBBON.—This celebrated physician has returned to San Francisco, after an absence of a year, during which time he has visited the prominent hospitals in the United States, England and France; and having carefully studied the different mode of treatment in all those establishments, he comes back with full knowledge as to a proper adaptation of them in the effecting of cures here. He has returned and resumed the practice of his profession at No. 617 Kearney street, where his old patients may find him, and those who are suffering from ills which his practice will allow him to cure. His card will be found in another column.

MEDICAL ADVICE.—DR. WM. K. DOHERTY's Medical and Surgical Institute is becoming a sine quo non to the welfare of our State and heatlh of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others, to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt the consolation which appertain to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—News

CALIFORNIANS should test the merits of DR. HOSTETTER'S STOMACH BITTERS. While it is highly palatable as a beverage, it is unequalled as a tonic and invigorator. In the pursuit of fortune at the mines, many persons are exposed to the attacks of complaints of the digestive organs, and various kinds of fever. It is the very article that has so long been in demand in the mines. Its daily use will the tone of a deranged stomach, impart fresh vitality to the digestive functions, and cheer the spirits. Yet the Bitters is the safest of all stimulants. Let the miner who is exposed to hot and dry, wet and cold, be certain to obtain a supply of the genuine Hostetter Bitter, and he will find it a certain safeguard to health. Dec9-3m

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1850. In this age of deceit and charlatanism it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. Consultation Office, 540, Washington street, San Francisco. Dec-3m

AT LEAST two-thirds of the Diseases with which the human family are afflicted, are brought on by the want of attention to the condition of the Blood. Whenever the blood becomes impure, no matter from what cause, the effects of such impurity are immediately felt, either in one way or another; and unless measures are at once taken to remove such impurities, the whole system becomes affected, and a long fit of sickness and sometimes death is the result. Dr. Samuel Adams, a well-known Chemist of San Francisco, has discovered certain herbs and roots, mostly of California growth, which he has combined with Sarsaparilla and Iodide of Potas, and succeeded in producing a Medicine that, while it is entirely harmless in every particular, will in short time completely eradicate from the Blood all impurities of whatever nature, and will restore the patient to perfect ROBUST HEALTH. The preparation is called "ADAMS' BLOOD PURIFIER," and is for sale at wholesale at the United States Drug Store, corner of Bush and Powell streets, San Francisco, and by Dr. D. W. Strong, Dutch Flat. 40

AN INTERESTING LETTER.

Very few persons, even among physicians, would have been willing upon any terms to have been in the condition of the writer of the following letter on the 14th of February last. I will anticipate somewhat his report of the fact by saying that on the 15th August, ult, he made me a visit "the very picture of good health." Time, which tests and proves all things, has sufficiently tested this case and shown that neither relapses nor collapses having followed, the cure is perfect, and can be cited among the scores of similar cases the result of my improved mode of treating diseases without medicine.

G. M. BOURNE,
Water Cure Physician,
No. 10, Masonic Temple, Post street.

AUGUST 17, 1865.

SACRAMENTO, April 30, 1865.

DR. G. M. BOURNE—Dear Sir:—It is with pleasure and satisfaction that I now let you know of my good health. Looking back on what I have passed through, it seems as if I was lifted from the grave, and I think it my duty to acknowledge to you and the world the benefit I derived from water treatment as administered by you in your celebrated baths. It was in August, 1864, when disease developed itself with a severe cough. I then took medicines, getting worse, with chills, fevers, loss of strength, and was pronounced consumptive. This set me to thinking, and finally I determined to leave my business and go the Sandwich Islands, having been informed that I could not be cured here. I went to San Francisco, and while waiting for a ship called upon Dr. Bourne, who stated that a trip to the Islands would probably result disastrously, was wholly unnecessary, as I could be speedily cured at his establishment. I placed myself under his treatment, and in one week I was so much improved I thought I could risk returning home and to my duty as Engineer on the Central Pacific Railroad. The Doctor objected; but I thought I knew better, and returned to duty. In about two weeks my cough returned, and I kept getting worse, and contrary to Dr. Bourne's injunction never to take medicine again, committed that folly, and soon was so completely run down that I could scarcely walk; so, as a last resort, I concluded once more to try the Water Cure. I went to San Francisco—few of my friends expecting me to return; in fact, I thought my return doubtful. On arriving at Dr. Bourne's establishment (February 14, 1865,) I was not able to get into the bath without assistance, but in a few days I began to recruit again. I remained with him only six weeks, when I left, "a wiser and a better man," without the aid of medicine. I have now been at work several weeks, and find that I am gaining every day, and at present bid fair to be stouter than ever before. Persons visiting the Doctor's establishment find it just what it should be, both in Ladies' and Gentlemen's Departments, and cannot say too much in praise of the Doctor's kind attention to his patients.

This letter I write for the benefit of all the afflicted, to be used as the Doctor decides, and should it be the means of directing any to his care and treatment who (as they assuredly will) find relief, I will be paid for my trouble.

JAMES CAMPBELL,
Engineer Central Pacific Railroad.

SAN FRANCISCO, August 22, 1865.

Advised by the undersigned, Mr. James Campbell, of the Central Pacific Railroad, (who was then in a most deplorable state of ill health,) placed himself under the care of Dr. Bourne, the Water Cure Physician. Some six months or more afterward he visited this city, when I accidentally met him at Dr. Bourne's establishment and am happy to say, restored to the enjoyment of good health, and in fine spirits. JOHN SULLIVAN.

☞ Dr. Bourne treats all diseases of the throat, chest, and lungs—which includes diptheria, bronchitis, incipient consumption, pleurisy, croup, etc.—with greatest success. Great relief is afforded in advanced stages of consumption. Rheumatism, paralysis, neuralgia, fever and ague, dropsy, etc., etc., are also cured quickly, pleasantly and economically. No medicine whatever.

Confirmation Strong, or an Interesting Letter.

SACRAMENTO, November 23, 1865.

DEAR DOCTOR:—I received your letter a few days since asking for my photograph, which I will attend to as soon as convenient. At present I am very busy on account of the stormy weather, being out at all times, both night and day, and am enjoying very good health, apprehending no danger if properly careful, as every one should be. I have read my letter in the CALL and other papers, and have been asked several times concerning it, and whether it is correct, and I say I can vouch for its contents, and more if required, and so can a great many others who knew me at that time. I remain your friend,

To DR. BOURNE, JAMES CAMPBELL.
San Francisco.

Dr. Bourne takes the liberty to publish the above, as many persons had prophesied the relapse into his former condition, on returning to his duties, of the writer of "An Interesting Letter," whose statements concerning the cure of a well defined case of consumption have recently attracted so much attention to the Water Cure, as improved upon and practised by Dr. Bourne. This additional testimony must prove satisfactory to all reasonable minds. It should be remembered that Dr. Bourne uses no medicines whatever, and that his patients almost universally are those who have failed to receive relief from the medical practitioners; yet they are cured with great rapidity, and in a pleasant and agreeable manner. CONSTABLE'S SALE.

BY virtue of an execution to me delivered and directed on the 11th day of February A. D. 1866, issued out of the court of E. Aubury, a Justice of the Peace in and for Township No. 4, County of Placer and State of California, on a judgement rendered in said court on the 11th day of February, A. D. 1866, in favor of Charles Weeks, and against B. H. Bartlett, P. B. Holmes and W. H. Hillhouse, for the sum of thirty-eight 50-100 dollars, and for costs of suit taxed at six 75-100 dollars, I have this day levied upon and will expose to public sale, to the highest bidder for cash in front of the Justice's office, in Dutch Flat

On Monday, March 20th, 1866,

at the hour of two o'clock, P. M., all the right, title, interest and claim which the said B. H. Bartlett, P. B. Holmes, W. H. Hillhouse, W. G. Brown et al, had on the 11th day of February, A. D. 1866, in and to the following described property, to wit: One mining claim situated lying and being on Canyon Creek, in Township No. 4, Placer County State of California, said claim commencing at a tunnel about 200 yards below the old saw mill on said Creek, and running nearly south from said tunnel 2,600 feet and running north from said tunnel 2,400 feet. Together with said tunnel, and all tools belonging to said claim. Said claim known as the Squires' quartz mining claim. All of which named and described property I shall sell as aforesaid, or so much thereof, as may be sufficient to satisfy the above judgement together with the costs due and to become due thereon.

J. F. GREELEY, Constable,
Feb. 15th. 1866. By H. H. GREELEY, Deputy.

The above sale is postponed until Monday, March 26th, 1866, at 2 o'clock P. M.

Excelsior Consolidated Gold and Silver Mining Company, Meadow Lake District, Nevada County, Cal.

50,000 Fine Cigars for Sale, At BURCKHALTER'S

THE following effusion gushed forth from the overburthened heart of an "honest miner," who had been rejected by his supposed affinity at a time when he was poor; but upon his suddenly becoming wealthy, she relented and sought to win him back—hence the following:

STOCKTON RANCHO, Cal, Nov. 23d, 1853.

"Most transendent and egregious Miss;—I would that my pen was plucked from the wing of an angel, mended by the pure prayer of an infant's wit, and dipped in the rich dies of the rainbow. Then might I expect to paint the burning brightness of that flame, which thy charming beauty has enkindled within my bosom. Oh! thou sunbeam of sentiment—soft moonlight of modesty! Thy voice is gentle as the first stirring of an infant's dreams. Thy lips are riven rose-buds, moistened by the honey-dew of affection. Thy step is soft as the silken footed zephyr, which fans with the wing of perfume the new-born paradise—O, sweet spirits of camphor! Double-distilled essence of sour krout, source of my thoughts; buttermilk, catsup of my fancy; tiger-lily of innocence, thou art the mint-julip of my dreams, the ginger-pop of my waking visions, and cherry bounce of my recollections! O. Florida War! Morse's galvanic battery and Fillmore's message! thou art handsome as the rhinoceros, melodious as the elephant, harmless as the lion, spotted as the leopard, and bright as struggling rays of sneering moonlight passing the mortal cracks of an old barn loft; a greased streak of blue lightning cutting its course through the milky way, followed by a shower of turnip-top comets per coon-roots and court of eternity. Thou art the onion of my soul—O, Mississippi cat-fish! pickled pumpkins; elephant pot-pie! O, prayer meetings, holy Moses, Daniel in the lion's den and Elijah fed by the ravens! O, gold diggers in Texas, overland route to Australia, and Susanna crossing the plains. Thy voice is melting as old butter in summer time. In short, thou art sweet as a drop of living water which ever flows from a barrel of rotten hoss apples. O, telegraph! The *je-hosaphat!* O, my dove—love-e—love-ly—love. Adios.

TEXAS.

A GENTLEMAN in Alabama, in exerting himself one day, felt a sudden pain, and fearing his internal machinery had been thrown out of gear, sent for a negro on his plantation, who made some pretensions to medical skill, to prescribe for him. The negro having investigated the cause, prepared and administered a dose to his patient, with the utmost confidence of a speedy cure. No relief being experienced, however, the gentleman sent for a physician, who, on arriving, inquired of the negro what medicine he had given his master. Bob promptly responded:

"Rosin and alum, sir!"

"What did you give them for?" continued the doctor.

"Why," replied Bob, "de alum to draw de parts together, and de rosin to sodder um."

The patient eventually recovered.

RESPECT OLD AGE.—Bow low the head, my young friend. Do reverence to the old man. He was once young and fair like you; but vicissitudes of life have silvered the hair, and changed the round, merry face to the worn visage before you.

Once that heart beat with incidents co-equal to any you have ever felt; but his aspirations have been crushed by disappointment, as yours may possibly be.

Once that form moved proudly through the gay scenes of life; now the hand of Time that withers the flowers of yesterday has warped the figure and destroyed the noble carriage.

Once, at your age, he possessed the thoughts that pass through your brain; now wishing to accomplish deeds worthy of a nook in fame; anon imagining life a dream, that the sooner awoke from the better. The time to awake is very near at hand, yet his eye kindles at noble deeds of daring, and the hand makes a firmer grasp of the staff.

Bow low the head, my young friend, as you in your old age, would be reverenced.

ON a recent Sunday night, a clergyman was preaching in Belfast, Maine, when a young man in the congregation, getting weary of the sermon, looked repeatedly at his watch. Just as he was in the act of examining his time piece for the fourth or fifth time, the pastor, with great earnestness, was urging the truth upon the conscience of his hearers. "Young man," said he, "how is it with you?" Whereupon the young man with the gold repeater bawled out in hearing of nearly the whole congregation, "A quarter past eight." As may be supposed, the gravity of the assembly was very much disturbed for a time.

NOT TO BE DONE BROWN.—Dr. Thomas Brown courted a lady for many years, but unsuccessfully, during which time it had been his custom to drink the lady's health before that of any other; but being observed one evening to omit it, a gentleman reminded him of it and said: "Come, doctor, drink the lady your toast." The doctor replied, "I have toasted her many years, and I cannot make her Brown, so I'll toast her no longer.

WANTS A LOCAL WRITER.—The Salt Lake *Telegraph* advertises for a local writer. It says "he must write to please everybody, and consequently have no taste or judgment of his own. Applicants must state whether bachelor, slightly bachelor or much married—the latter preferred."

PRETTY GOOD.—A fact highly honorable to typos is disclosed by a late report of the New York Inspector of the State Prison; while all other occupations are represented in their large number of convicts, there is not a single printer.

GOOD RESOLUTIONS.—1. To hear as little as possible to the prejudice of others.

2. To believe nothing of the kind until I am absolutely forced to it.

3. Never to drink in the spirit of one who circulates a false report.

4. Always to moderate, as far as I can, the unkindness which is expressed towards others.

5. Always to believe that if the other side was heard, a very different account would be given of the matter.

KITCHEN ODORS.—A skillful housekeeper says that the unpleasant odor arising from boiling ham, cabbage, etc., is completely corrected by throwing whole red peppers into the pot—at the same time the flavor of the food is improved. It is said that pieces of charcoal will produce the same effect.

TWO centuries ago, not one in a hundred wore stockings. Fifty years ago, not one boy in a thousand was allowed to run at large at night. Fifty years ago, not one girl in a thousand made a waiting maid of her mother. Wonderful improvement in this age.

A LETTER writer describing the fashionable customs as he saw them on Chesnut street, Philadelphia, says: "I observed that the prevailing style of garter was blue." The style of the dress enabled him to make the observation.

A MAN who lent a minister a horse which threw his Reverence, claimed salvation for having assisted in spreading the gospel.

NO WONDER.—One of the Indian Chiefs who went to Washington recently to smoke his pipe of peace has been married eighty-five times. No wonder he goes from home to have a pipe of peace.

A GENTLEMAN was speaking of the kindness of his friends in visiting him. An old aunt, in particular, visited him twice a year, and staid six months each time.

A JOKER in the Washington *Republican* says he would be perfectly willing to share the fortunes of war with the noble army of contractors.

IMPORTANT

MEDICAL DISCOVERY.

ELECTRICITY AS A CURATIVE AGENT

When it was promulgated by the Directors of the Electropathic Institute that disease could be entirely eradicated from the system without the use of poisonous drugs the thoughtless and those who do not look deeply into cause and effect scouted the assertion as chimerical, and wrote articles replete with sophistry, claiming that only through the digestive system could the blood be purged of the poisons which constitute disease; a great cry went up from those interested in the continued supremacy of the old system of one poison to cure another. All of the empirics joined in the chorus, and in their ignorance laughed at the new system, circulating base stories of its ill success, and quoting imaginary cases as proofs. Time has demonstrated their dishonesty. After five years of uninterrupted success the Electropathetic system is the leading idea in medical jurisprudence. While by the old system, physicians are contented to cure one in every five cases, there were those who were diving deep into the science of the curitive art; among these were the Electropathists; finally, it was discovered that the failure in most of the cases of organic diseases, was entirely due to the machine. Taking this view of the case, Dr. J. H. Josselyn, after years of experiment, has perfected an Electropathic Instrument, which will cure any disease which flesh is heir to, always to be understood that the case is not so far advanced as to show a destruction of the vital tissue. From early morn until late at night, this instrument is employed, imparting health and vigor to all who are so fortunate as to obtain its services. We do not claim that the use of medicines may not be more advantageous in some cases, but, that in connection with machines, it will perform a cure much sooner than without, and also that diseases hitherto deemed incurable, can be cured by this system, but the Directors desire to take this opportunity to inform invalids that the Resident Physician is a regular graduate and has had large experience in the treatment of disease, both with and without the assistance of electricity; he has also discovered several "electric" Vegetable remedies that will cure almost any nameable disease, which he will send with full instructions for use, to any part of the Pacific coast upon a receipt of a complete description of the disease with which the applicant may be afflicted, and will warrant a complete and perfect cure in all cases where the medicines are used according to directions and more especially in all cases of female troubles, where great care and caution are necessary to a favorable result. Disease (which by the old system) took months, and even years to cure, are now cured in a few days or weeks. The cost, too, is not so great as by the old system, besides the saving of time. Connected with this system are the renowned

Electro-Magnetic Baths,

than which there is no more powerful auxiliary in the world for the radical cure of disease. There is no institute in the State where the electropathic system is practiced, except at the

Electropathic Institute,

645 Washington street.

This Institute was established to, if possible prevent the unwary from falling into those dens of robbery (yclept quack doctors' traps,) and hereafter the scientific originators of this Institute will not be to blame if the afflicted are robbed of their money, and injured in constitution. There is another view of the affair. The rising generation should be reared with strong constitutions, and the Directors wish to arouse their guardians to a proper sense of their duties in the premises, if possible to prevent them from stuffing their young charges with deleterious drugs, with a chance of entailing upon the tender constitution just forming, a complication of evils, a thousand times worse than death.

It would be consuming space, to no purpose, to enumerate the diseases to which this system is applicable, suffice it to say, that there is no disease, within the catalogue of human ills but what can be cured at the Electropathic Institute. We have instructed the Resident Physician to warrant a perfect and permanent cure, or ask no pay for services, when in his judgement it is within the bounds of cure.

CAUTION.

Persons seeking the Electropathic Institute, should be careful to remember the name and number.

PRIVATE MEDICAL AID.

QUICK CURES AND MODERATE CHARGES.

DR. W. K. DOHERTY'S
Private Medical and Surgical Institute,

Sacramento Street, below Montgomery, opposite the Pacific Mail Steamship Company's Office. Private entrance on Leidesdorff street, San Francisco.

Established expressly to afford the afflicted sound and Scientific Medical Aid, in the treatment and cure of all Private and Chronic Diseases, cases of secrecy and all Sexual Diseases.

TO THE AFFLICTED.

DR. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhœa, Gleet, Strictures, Nocturnal and Diurnal emissions, Sexual Disability, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful practice will continue to ensure him a share of public patronage. By the practice of many years in Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, and has references from men of known respectability and high standing in society. All parties consulting him by letter or otherwise, will receive the best and gentlest treatment, and implicit secrecy.

DR. DOHERTY would call attention to the following certificates from two of his patients, who, having fully recovered their health, desire to make known their remedial agent. It will be seen their statements are fully authenticated by a Notary Public.

The welfare of society imperiously demand their publicity, and they are given more to warn the unwary than to sound the praise of a Physician, of whom hundreds of like cases can be cited during a practice of more than fifteen years.

DR. DOHERTY—Dear Sir: I feel my health so fully restor ed, that in common gratitude, I believe I should make you some some written acknowledgement for your valuable services—particularly as your fee was small for the work performed.

I arrived in this city from the East about one year ago, and was then suffering from an old case of Gleet, complicated with Stricture. Being a stranger in this city, and believing those Doctors who gave such positive assurances of success were necessarily the best, (some of whom have a large number of titles,) I placed myself in their charge and continued under their treatment until I had lost nearly all hope and a considerable sum of money.

I wish to say now that you are the sixth Doctor I have employed, and the only one that has ever done me any service. My Gleet is wholly cured, the Stricture is all removed, and my general health is beter than it has been for years.

In conclusion, I would say to the many unfortunates who require medical advice, if you have any doubt as to whom you may employ, ask Dr. Doherty for my address and call and see me. (I keep store in this city.) My experience may save you many dollars.

I would also add that in the early stage of my disease, I used a large amount of the preparations advertised as an infallible cure for Gonorrhœ, Gleet, etc., but never derived any benefit from them.

I am, Doctor, very truly yours, L—— H——.
San Francisco, June 16, 1864.
Subscribed and sworn to before me, this 21tt day of June, A. D. 1864.
[L. S.] A. S. GOULD, Notary Public.

Seminal Weakness—A Sworn-to Certificate of a most Remarkable Cure of Spermatorrhœa.

A desire to benefit humanity, and a feeling of gratitude to Dr. W. K. Doherty, alone induces me to make this statement. For many years I have been afflicted with that fearful disease known as "Spermatorrhœa," or Seminal Weakness, the result of self-abuse, but till 1855 experienced but little trouble or inconvenience. In that year however, I had Seminal Weakness to an alarming extent, which was soon followed by the most alarming symptoms as weakness of the back and limbs, pain in the head, dimness of vision, nervousness and general debility. My mind, too, was afflicted to such an extent as to seriously impair my memory; my ideas were confused and spirits depressed. I was averse to society, had evil forebodings and self-distrust, and was entirely unfitted for any of the duties of life. From 1855 to the summer of 1863, I employed the very best medical talent I could find, and spent several hundred dollars, but in no instance obtained more than temporary relief. I had about concluded there was no relief for me in this world, but seeing Dr. Doherty's advertisement, I thought I would call and see him, as he charged nothing for consultation. I had an interview with Dr. Doherty at his office, in Sacramento street, and his fee for treatment was so reasonable, I determind to try him, though I did not expect much benefit from his treatment. On the 5th of December last I placed myself under his care; in one week I found myself very much improved, and, now, after five weeks' treatment, I feel myself thoroughly cured of all my troubles and in the enjoyment of the best health. Hoping that my experience may be of benefit to others similarly afflicted, I subscribe myself

JAMES JOHNSTON.

Subscribed and sworn to before me, this 15th day of January, A. D. 1864.

To Females.

When a female is in trouble, or afflicted with disease as weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular power, palpitation of the heart, irritability, nervousness, extreme urinary difficulties, derangement of digestive functions, general debility, vaginitis, all diseases of the womb, hysteria, sterility, and all other diseases peculiar to females, they should go or write at once to the celebrated female doctor, W. K. Doherty, at his Medical Institute, and consult him about their troubles and disease. The Doctor is effecting more cures than any other physician in the State of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful sufferings and premature death. All Married Ladies whose delicate health or other circumstances prevent an increase in their families should write or call at Dr. W. K. Doherty's Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation.

To Correspondents.

Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. Doherty on their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred. Dr. Doherty takes this opportunity of observing, that all letters are only opened and replied to by himself, and the latter as promptly as possible.

If the case be fully and candidly described, personal communication will be superseded, as instructions for diet, regimen, and the general treatment of the case (including the remedies), will be forwarded without delay, and in such a manner as to convey no purport of the letter or parcel so transmitted.

☞ Consultation at the office FREE. Permanent cure guaranteed or no pay. Address,

THIS CELEBRATED INSTITUTE

has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it it in point of number of patients among the very first of the world, and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALE and IRREGULARITIES IN FEMALES are the great destroyers of health They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venerial Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles in dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be Satisfied with Partial Cures

that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine. WHEN PERFECT CURES can be obtained by consulting a physician whom long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, PERFECT SPEEDY and PERMANENT,

Cures are always Guaranteed.

In syphilis and its adjuncts, Gonnorhœa and its accompanying diseases; and all diseases of the Bladder, Kidneys, and prostrate; Seminal Weakness; Diseases of the Heart and Lungs; Dyspepsia; Indigestion, Impotency; Incipient consumption, and all diseases of the urinary organs, in either sex, cure always warranted, NO PAY REQUIRED, at the

Private Medical Institute,

SEMINAL WEAKNESS OR SPERMATORRHOEA.

The young man who experiences that growing weakness in his muscular and mental organization should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing deafness, loss of muscular power, and numerous other symptoms of disorganization, the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that the one who looks to him for so much of her happiness is a victim to his evil, and an innocent companion of his punishment He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands of sick-rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their suffering. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and by the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble, and in whose secrecy the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Renovating Agents. None genuine unless procured at this office.
